

General urban planning plan for Cieza, Murcia

Project details

Client: Cieza Town Council

Date: 2008

Country: Spain

Area of Activity: Urban development

Main Activity: Review of the general urban planning plan

2008 Technical Quality in Urban Planning Award

Prointec's work towards drafting this plan received the **2008 Technical Quality in Urban Planning Award** from the Department of Public Works and Urban Planning in the Murcia Region.

Cieza is the main municipality in the judicial district of the Segura river plain. Prointec's review of the plan highlights the territory's important agricultural production capacity, and combines this with its appropriate expansion and urban development. The document proposes the harmonious integration of its heritage resources, the ethnographic and hydraulic elements in the agricultural area of Murcia, and the archaeological remains and sites of geological interest.
